

HELIUM (LIQUID REFRIGERATED)

Warning

SECTION 1: Identification of the substance/mixture and of the company/undertaking

1.1. Product identifier	
Trade name	Helium (refrigerated)
SDS no	SSI/MSDS/LHE/1
Chemical description	Helium (refrigerated)
	CAS No : 7440-59-7
	EC no : 231-168-5
	EC index no :
Registration-No.	Listed in Annex IV / V REACH, exempted from registration.
Chemical formula	He
1.2. Relevant identified uses of the substance of	r mixture and uses advised against
Relevant identified uses	: Industrial and professional. Perform risk assessment prior to use.
	Laboratory use. Use for manufacture of electronic/photovoltaic components
	Contact supplier for more information on usesTest gas/Calibration gas.
Uses advised against	: Consumer use.
1.3. Details of the supplier of the safety data she	—
Company identification	: SICGILSOL India Pvt Ltd
	Plot S-2,Phase III,Sipcot industrial complex,
	Nellikuppam,Walajapet Taluk,Ranipet-632405 Mob.No : 09677237866
	http://www.sicgilsol.com/
1.4. Emergency telephone number	http://www.sicgiisol.com/
	: Mob.No : 09677237866
Emergency telephone number	. MOD.NO: 09677237866
SECTION 2: Hazards identification	
2.1. Classification of the substance or mixture	
Classification according to Regulation (EC) No.	1272/2008 [CLP]
Physical hazards	: Gases under pressure : Compressed gas H280
2.2. Label elements	
Labelling according to Regulation (EC) No. 1272	2/2008 [CLP]
Hazard pictograms (CLP)	
	GHS04
Signal word (CLP)	: Warning
Hazard statements (CLP)	: H281 - Contains refrigerated gas; may cause cryogenic burns or injury.
Precautionary statements (CLP)	
- Prevention : P282 - Wear cold ir	nsulating gloves, face shield, eye protection
- Response : P336+P315 - Thaw fr	rosted parts with lukewarm water. Do not rub affected area. Get immediate medical advice / attention
- Storage : P403 - Store in a well-	ventilated place
SECTION 3: Composition/informat	ion on ingredients

3.1. Substance

Name	Product identifier	%	Classification according to Regulation
			(EC) No. 1272/2008 [CLP]
Helium (refrigerated)	(CAS No) 7440-59-7	100	Press. Gas (Ref. Liq.), H281
	(EC no) 231-168-5		
	(EC index no)		
	(Registration-No.) *1		

*1: Listed in Annex IV / V REACH, exempted from registration.

*2: Registration deadline not expired.

*3: Registration not required: Substance manufactured or imported < 1t/y.

Full text of H-statements see section 16.

(3.2. Mixture : Not applicable

SICGILSOL	

(LIQUID REFRIGERATED)

SECTION 4: First aid measures

HELIUM

4.1. Description of first aid measures

4.1. Description of mist and measures	
- Inhalation	: Remove victim to uncontaminated area wearing self contained breathing apparatus. Keep
	: victim warm and rested. Call a doctor. Apply artificial respiration if breathing stopped.
- Skin contact	: Adverse effects not expected from this product.
- Eye contact	: Adverse effects not expected from this product.
- Ingestion	: Ingestion is not considered a potential route of exposure.
4.2. Most important symptoms and effects, both	acute and delayed Most important symptoms and effects, both acute and delayed
	: In high concentrations may cause asphyxiation. Symptoms may include loss of
	mobility/consciousness. Victim may not be aware of asphyxiation.
4.3. Indication of any immediate medical attention	on and special treatment needed
	: None.
SECTION 5: Fire-fighting measures	<u>3</u>
5.1. Extinguishing media	
- Suitable extinguishing media	: Water spray or fog.
- Unsuitable extinguishing media	: Do not use water jet to extinguish.
5.2. Special hazards arising from the substance	
Specific hazards	: Exposure to fire may cause containers to rupture/explode.
Hazardous combustion products	: None.
5.3. Advice for firefighters	
Specific methods	: Use fire control measures appropriate for the surrounding fire. Exposure to fire and heatradiation
	may cause gas receptacles to rupture. Cool endangered receptacles with water sprayjet from a
	protected position. Prevent water used in emergency cases from entering sewers anddrainage
	systems. If possible, stop flow of product. Use water spray or fog to knock down fire fumes if
	possible. Move containers away from the fire area if this can be done without risk.
Special protective equipment for fire fighters	: Standard protective clothing and equipment (Self Contained Breathing Apparatus) for firefighters.Standard EN 137 - Self-contained open-circuit compressed air breathing apparatus with fullface mask.Standard EN 469 - Protective clothing for firefighters. Standard - EN 659: Protective gloves forfirefighters.
SECTION 6: Accidental release me	asures
6.1. Personal precautions, protective equipment	and emergency procedures
	: Try to stop release. Evacuate area. Monitor concentration of released product. Wear self-
	contained breathing apparatus when entering area unless atmosphere is proved to be safe. Ensure adequate air ventilation. Prevent from entering sewers, basements and workpits, or any place where its accumulation can be dangerous. Act in accordance with local emergency plan. Stay upwind.
6.2. Environmental precautions	: None
6.3. Methods and material for containment and o	
	: None
6.4. Reference to other sections	See also sections 8 and 13.
SECTION 7: Handling and storage	
7.1. Precautions for safe handling	
Safe use of the product	: The product must be handled in accordance with good industrial hygiene and safety procedures.
	Only experienced and properly instructed persons should handle gases under pressure. Consider pressure relief device(s) in gas installations. Ensure the complete gas system was (or is regularily) checked for leaks before use. Do not smoke while handling product. Use only properly specified equipment which is suitable for this product, its supply pressure and temperature. Contact your gas supplier if in doubt. Do not breathe gas. Avoid release of product into atmosphere.
Safe handling of the gas receptacle	: Refer to supplier's container handling instructions Do not allow backfeed into the container.Protect cylinders from physical damage; do not drag, roll, slide or drop.When moving cylinders, even for short distances, use a cart (trolley, hand truck, etc.) designed to transport cylinders.Leave valve protection caps in place until the container has been secured against either a wallor bench or placed in a container stand and is ready for use.If user experiences any difficulty operating cylinder valve discontinue use and contact supplier.Never attempt to repair or

modify container

difficulty operating cylinder valve discontinue use and contact supplier.Never attempt to repair or

MATERIAL SAFETY DATA SHEET

HELIUM (LIQUID REFRIGERATED)

SSI/MSDS/LHE/1 Issue No. : 2; Rev. No. 1 Date : 10.12.2018

valves or safety relief devices.Damaged valves should be reported immediately to the supplier.Keep container valve outlets clean and free from contaminants particularly oil and water.Replace valve outlet caps or plugs and container caps where supplied as soon as container isdisconnected from equipment.Close container valve after each use and when empty, even if still connected to equipment.Never attempt to transfer gases from one cylinder/container to another.Never use direct flame or electrical heating devices to raise the pressure of a container.Do not remove or deface labels provided by the supplier for the identification of the cylindercontents.Containers should be stored in the vertical position and properly secured to prevent them fromfalling over.

7.2. Conditions for safe storage, including any incompatibilities

: Observe all regulations and local requirements regarding storage of containers. Containers should not be stored in conditions likely to encourage corrosion. Container valve guards or caps should be in place. Containers should be stored in the vertical position and properly secured to prevent them fromfalling over. Stored containers should be periodically checked for general condition and leakage. Keep container below 50°C in a well ventilated plac e. Store containers in location free from fire risk and away from sources of heat and ignition. Keep away from combustible materials.

7.3. Specific end use(s)

None

SECTION 8: Exposure controls/personal protection

8.1. Control parameters

OEL (Occupational Exposure Limits) : No data available.

DNEL (Derived-No Effect Level) : No data available.

PNEC (Predicted No-Effect Concentration) : No data available.

8.2. Exposure controls

8.2.1. Appropriate engineering controls	Provide adequate general and local exhaust ventilation. Systems under pressure should be regularily checked for leakages. Ensure exposure is below occupational exposure limits (where available). Oxygen detectors should be used when asphyxiating gases may be released. Consider the use of a work permit system e.g. for maintenance activities.
8.2.2. Individual protection measures, e.g. pers	sonal protective equipment
	: A risk assessment should be conducted and documented in each work area to assess the risks related to the use of the product and to select the PPE that matches the relevant risk. The following recommendations should be considered: PPE compliant to the recommended EN/ISO standards should be selected.
Eye/face protection	: Wear safety glasses with side shields. Wear goggles and a face shield when transfilling or breaking transfer connections Standard EN 166 - Personal eye-protection - specifications
Skin protection	
- Hand protection	: Wear working gloves when handling gas containers. Standard EN 388 - Protective gloves against mechanical risk.
- Other	: Wear safety shoes while handling containers. Standard EN ISO 20345 - Personal protective equipment - Safety footwear.
Respiratory protection	: Self contained breathing apparatus (SCBA) or positive pressure airline with mask are to be used in oxygen-deficient atmospheres.
	Standard EN 137 - Self-contained open-circuit compressed air breathing apparatus with full face mask.
Thermal hazards	 Wear cold insulating gloves when transfilling or breaking transfer connections Standard EN 511 - Cold insulating gloves
8.2.3. Environmental exposure controls	: None necessary.
SECTION 9: Physical and chemica	al properties
0.4. Information on basis abusised and abamies	al according

9.1. Information on basic physical and chemical properties Appearance Physical state at 20°C / 101.3kPa : Gas. Colour : Colourless. Odour : No odour warning properties. Odour threshold : Odour threshold is subjective and inadequate to warn of overexposure. pH value : Not applicable.

SICGILSOL India Private Limited.

HELIUM

MATERIAL SAFETY DATA SHEET

(LIQUID REFRIGERATED) Molar mass 4 g/mol Melting point -272 °C -269 °C **Boiling point** Flash point : Not applicable for gases and gas mixtures. Critical temperature [°C] -268 °C Evaporation rate (ether=1) : Not applicable for gases and gas mixtures. Flammability range : Non flammable. Vapour pressure [20°C] : Not applicable. Vapour pressure [50°C] : Not applicable. Relative density, gas (air=1) 0.14 Relative density, liquid (water=1) 0.12 Solubility in water 1.5 mg/l : Not applicable for inorganic gases. Partition coefficient n-octanol/water Auto-ignition temperature : Not applicable. Viscosity [20°C] : Not applicable. 9.2. Other information : None Other data SECTION 10: Stability and reactivity 10.1. Reactivity : No reactivity hazard other than the effects described in sub-sections below. 10.2. Chemical stability : Stable under normal conditions. 10.3. Possibility of hazardous reactions : None. 10.4. Conditions to avoid : None under recommended storage and handling conditions (see section 7) For additional information on compatibility refer to ISO 11114. 10.5. Incompatible materials 10.6. Hazardous decomposition products : None SECTION 11: Toxicological information 11.1. Information on toxicological effects : No toxicological effects from this product. Acute toxicity Skin corrosion/irritation Serious : No known effects from this product. eye damage/irritation : No known effects from this product. Respiratory or skin : No known effects from this product. sensitisation Germ cell : No known effects from this product. : No known effects from this product.

: No known effects from this product.

Aspiration hazard

SECTION 12: Ecological information

12.1. Toxicity

Assessment	: No ecological damage caused by this product
EC50 48h - Daphnia magna [mg/l]	No data available.
EC50 72h - Algae [mg/l]	No data available.
LC50 96 h - Fish [mg/l]	No data available.
12.2. Persistence and degradability	
Assessment	: No ecological damage caused by this product.
12.3. Bioaccumulative potential	
Assessment	: No ecological damage caused by this product.
<u>12.4. Mobility in soil</u>	
Assessment	: No ecological damage caused by this product.
12.5. Results of PBT and vPvB assessr	nent
Assessment	: Not classified as PBT or vPvB.
12.6. Other adverse effects	: Can cause frost damage to vegetation.
Effect on the ozone layer	: None.
Effect on global warming	: None.

HELIUM (LIQUID REFRIGERATED)

SSI/MSDS/LHE/1 Issue No. : 2: Rev. No. 1 Date : 10.12.2018

SECTION 13: Disposal considerations 13.1. Waste treatment methods Contact supplier if guidance is required, May be vented to atmosphere Do not discharge into any place where its accumulation could be dangerous Refer to the EIGA code of practice Doc.30 "Disposal of Gases", downloadable at http://www.eiga.org for more guidance on suitable disposal methods : 16 05 05 : Gases in pressure containers other than those mentioned in 16 05 04. List of hazardous waste codes (from Commission Decision 2001/118/EC) 13.2. Additional information : None. **SECTION 14: Transport information** 14.1. UN number : 1963 14.2. UN proper shipping name Transport by road/rail (ADR/RID) : HELIUM, REFRIGERATED LIQUID Transport by air (ICAO-TI / IATA-DGR) : HELIUM, REFRIGERATED LIQUID Transport by sea (IMDG) : HELIUM, REFRIGERATED LIQUID 14.3. Transport hazard class(es) Labelling : 2.2 : Non-flammable, non-toxic gases Transport by road/rail (ADR/RID) Class 2 · ЗA Classification code : Hazard identification number 22 **Tunnel Restriction** C/E - Tank carriage : Passage forbidden through tunnels of category C, D and E. Other carriage : Passage forbidden through tunnels of category E Transport by air (ICAO-TI / IATA-DGR) Class / Div. (Su : : 2.2 Transport by sea (IMDG) Class / Div. (Su : 2.2 : : F-C Schedule (EmS) - Fire Emergency Schedule (EmS) - Spillage : S-V 14.4. Packing group Transport by road/rail (ADR/RID) : Not applicable Transport by air (ICAO-TI / IATA-DGR) : Not applicable Transport by sea (IMDG) : Not applicable 14.5. Environmental hazards Transport by road/rail (ADR/RID) : None. Transport by air (ICAO-TI / IATA-DGR) : None. Transport by sea (IMDG) : None. 14.6. Special precautions for user Packing Instruction(s) Transport by road/rail (ADR/RID) P203 · Transport by air (ICAO-TI / IATA-DGR) Passenger and Cargo Aircraft 202 Cargo Aircraft only 202 Transport by sea (IMDG) P203 Special transport precautions Avoid transport on vehicles where the load space is not separated from the driver's compartment. Ensure vehicle driver is aware of the potential hazards of the load and knows what to do in the event of an accident or an emergency. Before transporting product containers: - Ensure there is adequate ventilation. - Ensure that containers are firmly secured. - Ensure cylinder valve is closed and not leaking. - Ensure valve outlet cap nut or plug (where provided) is correctly fitted.

- Ensure valve protection device (where provided) is correctly fitted.

14.7. Transport in bulk according to Annex II of MARPOL 73/78 and the IBC Code

: Not applicable.

HELIUM (LIQUID REFRIGERATED)

SSI/MSDS/LHE/1 Issue No. : 2; Rev. No. 1 Date : 10.12.2018

SECTION 15: Regulatory information

EU-Regulations	ns/legislation specific for the substance or mixture	
Seveso Directive : 2012/18/EU (Seveso III)	: Not covered.	
National regulations		
National legislation	: Ensure all national/local regulations are observed.	
Water hazard cl:		
15.2. Chemical safety assessment	: A CSA does not need to be carried out for this product.	
SECTION 16: Other information		
Indication of changes	: Revised safety data sheet in accordance with commission regulation (EU) No 2015/830.	
Training advice	: Receptacle under pressure.	
Further information	: This Safety Data Sheet has been established in accordance with the applicable European	
	Union legislation. Classification in accordance with the calculation methods of Regulation (EC)	
Full text of H- and EUH-statements		

Press. Gas (Ref. Liq.)	Gases under pressure : Refrigerated liquefied gas	
H281	Contains refrigerated gas; may cause cryogenic burns or injury.	
DISCLAIMER OF LIABILITY : Before using this product in any new process or experiment, a thorough material compatible		thorough material compatibility
	and safety study should be carried out. Details given in this document are believed to be correct
